MARINA

MODEL A220

Attractive design and robust construction have added to the popularity of this door. Its all-aluminum components, including the extra-heavy-duty extruded aluminum frame, make the Marina one of our most requested models.

Built to last

Extra-heavy-duty 2-1/8" x 3/4" extruded aluminum frame with rigid LOK-tite™ corners.

Three-inch-wide extruded aluminum pushbar.

Heavy patterned kickplate integral with main frame and

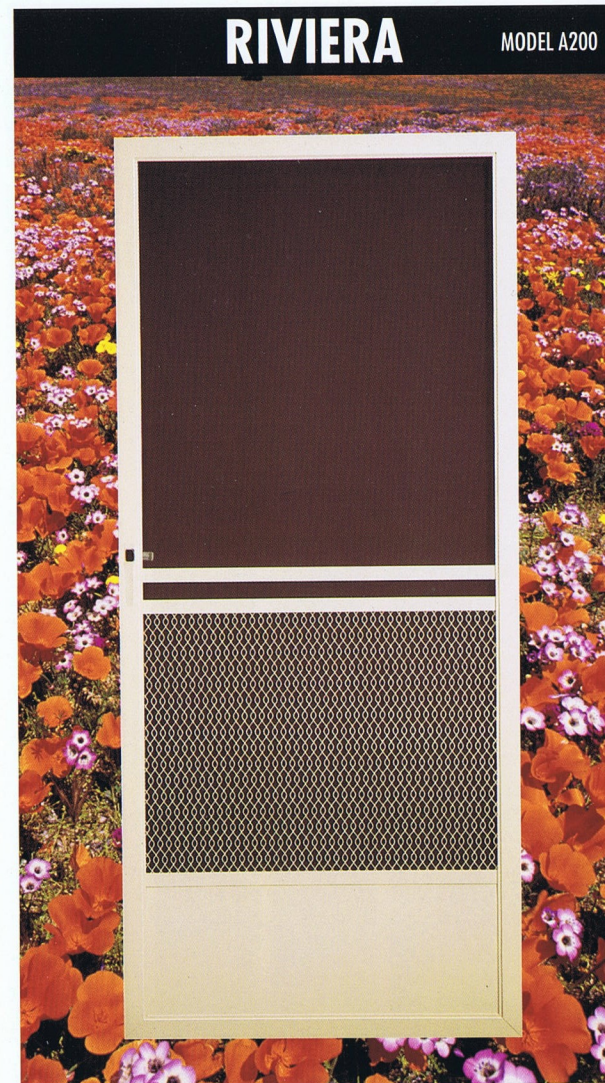

heavy-duty expanded aluminum grill locked directly to main frame.

Highest quality pushbutton lock, pneumatic closer, oilite bearing hinges.

Installation instructions included.

RIVIERA

MODEL A200

Riviera styling compliments all types of architecture. Extra-heavy-duty extruded aluminum frame, all-aluminum components and unsurpassed quality make the Riviera our most popular door.

Built to last

Extra-heavy-duty 2-1/8" x 3/4" extruded aluminum frame with rigid LOK-tite™ corners.

Two 1-1/4" extruded aluminum pushbars.

Heavy patterned kickplate integral with main frame and

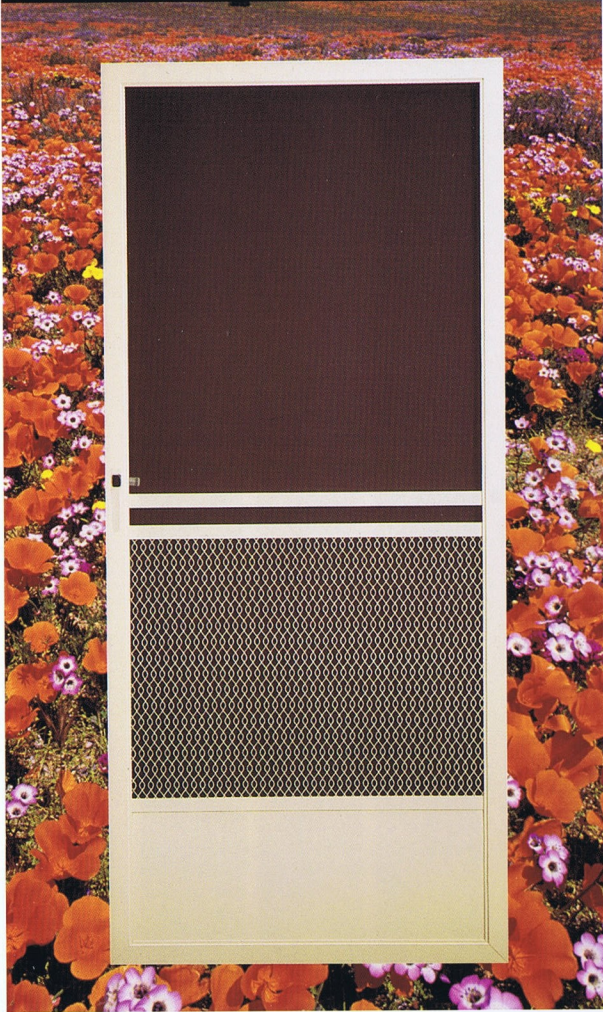

heavy-duty expanded aluminum grill locked directly to main frame.

Highest quality pushbutton lock, pneumatic closer, oilite bearing hinges.

Installation instructions included.

RIVIERA

**Guaranteed to open
and close 100,000 times**

Will Not Rust

Extruded aluminum doors will not rust like steel doors.

Lowest Cost per Year

Annual cost is low when compared to poor quality sheet metal doors.

Easy to Install

You need only a drill, screwdriver, hacksaw and 30 minutes. All hardware and instructions are included.

Quiet Closing

Heavy-duty pneumatic door closer is guaranteed for ten years. Pushbutton positive close latch with no-lockout feature.

Adjustable to Fit Most Openings

Heavy-duty side and bottom expander channels provide width and height adjustments up to 1-1/8 inches from standard size.

*Aluminum extruded
doors with LOK-tite™
corners will not
twist or warp.*
